

CP8307 Presentation Instructions

General instructions

All students enrolled in CP8307 are required to deliver a presentation on their final project during the **last class of the semester (November 25th, 8:00 – 11:00 am)**. **The presentation slides are due on Sunday, November 23rd, at 11:59pm. You have 24 hours of grace time without penalty. Submissions after the grace period will not be accepted.** Please review the following guidelines carefully:

- **Objective:** The goal of the presentation is to demonstrate your understanding of the subject matter and to share insights that may benefit your peers' knowledge of related research areas.
- **Preparation:** Structure your presentation clearly and in accordance with the provided grading rubric to ensure clarity, coherence, and effectiveness.
- **Format:** You may use any presentation software (e.g., PowerPoint, Google Slides), but your slides must be compatible with Windows PCs.
- **Submission & Backup:** Submit your slides to D2L before the deadline **November 23rd, at 11:59pm**. Please also bring a USB flash drive with your presentation as a backup in case of internet connectivity issues.
- **Time Limit:** Each student will have **10 minutes total — 8 minutes for the presentation, followed by 2 minutes for Q&A.**
- **Attendance & Participation:** Active participation is mandatory for all students in both CPS843 and CP8307. This includes attending your peers' presentations and engaging in the discussion.

Some tips

To help you prepare an effective and engaging final presentation, you may follow the structured outline below. Aim to clearly communicate your work within the time limit while ensuring your audience gains valuable insights.

1. Opening

- Introduce the problem you are addressing.
- Provide contextual background and explain why this problem is important.
- Clearly state your motivation for selecting this topic.

2. Approach

- Describe the methods or strategies you are using to tackle the problem.
- Justify your choice of approach and how it aligns with the problem.

3. Technical Presentation

- Provide a technical breakdown of the algorithm, model, or method.
- Explain how it works, its key components, and any underlying theory.
- Keep explanations concise but informative.

4. Implementation, Experiments, and Analysis

- Outline your implementation strategy and tools used.
- Discuss the experiments conducted (or planned), including design and objectives.

- Present your results and analysis: If available, show preliminary results using tables, plots, or graphs. If results are not yet available, present relevant findings from the literature that support your direction.

5. Summary and Takeaways

6. Additional Tips:

- Keep it focused: Avoid overloading your slides or your talk with too much content.
- Aim to engage your audience and help them learn something useful within the short presentation time.
- Practice your timing to ensure you stay within the 8 mins + 2 mins Q&A format.

Evaluation Criteria

- Your grade will not be based on the project's results or novelty. Instead, we are assessing how well you understand your topic and communicate it to an academic audience.
- Please refer to the provided rubric for detailed guidance and assessment criteria.
- Evaluation will primarily focus on your understanding of the topic and the overall clarity of your presentation. This includes Content quality, logical organization, effectiveness of delivery, and engagement during the Q&A session

Presentation agenda

Group 1. (Nov. 25, 8:10 – 9:00 am)

1. Kamaludeen, Ahmad
2. Begovic, Ahmed
3. Briskina, Anna
4. Chung, Benjamin
5. Tareke, Demetros

Group 2. (Nov. 25, 9:00 – 10:00 am)

6. Cen, Eric
7. Ibadula, Ervin
8. Denoon, Jonathan
9. Patel, Kiran
10. Reynolds, Mike

Group 3. (Nov. 25, 10:00 – 11:00 am)

11. Haile, Naod
12. Bhattacharjee, Somnath
13. Dang, Zubeka
14. Guo, Charlie

Note: We will use the classroom PC for the presentation.

Rubric for Presentation (CP8307)

	Exceeds Standard	Meets Standard	Nearly Meets Standards	Does Not Meet Standard	Score
Language Use and Delivery The student communicates ideas effectively	☐ Effectively uses eye contact. ☐ Speaks clearly, effectively and confidently using suitable volume and pace. ☐ Fully engages the audience. ☐ Dresses appropriately, ☐ Selects rich and varied words for context and uses correct grammar.	☐ Maintains eye contact. ☐ Speaks clearly and uses suitable volume and pace. ☐ Takes steps to engage the audience. ☐ Dresses appropriately. ☐ Selects words appropriate for context and uses correct grammar.	☐ Some eye contact, but not maintained. ☐ Speaks clearly and unclearly in different portions. ☐ Occasionally engages audience. ☐ Dresses inappropriately. ☐ Selects words inappropriate for context; uses incorrect grammar.	☐ Uses eye contact ineffectively. ☐ Fails to speak clearly and audibly and uses unsuitable pace. ☐ Does not engage audience. ☐ Dresses inappropriately. ☐ Selects words inappropriate for context; uses incorrect grammar.	
Organization and Preparation The student exhibits logical organization.	☐ Introduces the topic clearly and creatively. ☐ Maintains clear focus on the topic.. ☐ Effectively includes smooth transitions to connect key points. ☐ Ends with logical, effective and relevant conclusion.	☐ Introduces the topic clearly. ☐ Maintains focus on the topic. ☐ Include transitions to connect key points. ☐ Ends with coherent conclusion based on evidence.	☐ Introduces the topic. ☐ Somewhat maintains focus on the topic. ☐ Includes some transitions to connect key points. ☐ Ends with a conclusion based on evidence.	☐ Does not clearly introduce the topic. ☐ Does not establish or maintain focus on the topic. ☐ Uses ineffective transitions that rarely connect points. ☐ Ends without a conclusion.	
Content The student explains the process and findings of the project and the resulting learning.	☐ Clearly defines the topic or thesis and its significance. ☐ Supports the thesis and key findings with an analysis of relevant and accurate evidence ☐ Provides evidence of extensive and valid research with multiple and varied sources ☐ Provides evidence of complex problem solving and learning stretch. ☐ Combines and evaluates existing ideas to form new insights.	☐ Clearly defines the topic or thesis. ☐ Supports the thesis and key findings with evidence. ☐ Presents evidence of valid research with multiple sources. ☐ Provides evidence of problem solving and learning stretch. ☐ Combines existing ideas to form new insights.	☐ Defines the topic or thesis. ☐ Supports the thesis with evidence. ☐ Presents evidence of research with sources. ☐ Provides some evidence of problem solving and learning stretch. ☐ Combines existing ideas.	☐ Does not clearly define the topic or thesis. ☐ Does not support the thesis with evidence. ☐ Presents little or no evidence of valid research. ☐ Shows little evidence of problem solving and learning stretch. ☐ Shows little evidence of the combination of ideas.	
Questions and Answers	Demonstrates extensive knowledge of the topic by responding confidently, precisely and appropriately to all audience questions and feedback.	Demonstrates knowledge of the topic by responding accurately and appropriately to questions and feedback.	Demonstrates some knowledge of the topic by responding accurately and appropriately to questions and feedback.	Demonstrates incomplete knowledge of the topic by responding inaccurately and inappropriately to questions and feedback.
